FROM THE DAIS

YOUTH FAIR

On July 17, 2014 the Board of County Commissioners held a policy discussion regarding the Dade County Youth Fair and the planned expansion of its neighbor, Florida International University. Over the last several years Miami Dade County has been engaged in discussions with the operators of the Fair over possible relocation of the annual event to pave the way for expansion of FIU's medical school. At the conclusion of yesterday's discussion I made a motion directing Mayor Gimenez to identify a suitable relocation site for the Fair and to present his recommendation to the Board of County Commissioners on September 3, 2014. Along with his recommendation, the Board further directed the Mayor to prepare language for a countywide referendum question asking the voters whether they support the proposed FIU expansion onto the current Youth Fair site. The Youth currently operates on County owned park land situated within Tamiami Park in West Miami-Dade County.

ARTICLE 7 AMENDMENTS

At its July 17, 2014 meeting the Board of county Commissioners approved three parks-related countywide referendum questions, under my sponsorship, which will appear on the November 4, 2014 ballot. All three questions would Amend Article 7 of the County Charter which relates to preservation and maintenance of public park lands.

The first question asks voters whether Article 7 should be amended to permit library uses in public parks. Currently, the County leases private office space to house smaller branch libraries known as "storefronts." If the charter amendment is adopted the hope is that the Parks department will identify underutilized recreation centers which may be suitable for conversion into a branch library. If approved, this charter amendment would allow the administration to begin chipping away at the 1.7 million dollars in rent paid to operate "storefront" library branches while transforming some of our recreation centers in multi-purpose community centers.

The second and third questions propose to exempt two county parks from the provisions of Article 7 to allow for construction of lodging facilities. The first exemption would be for a county owned site on NW 58 St in Doral, which is slated to be converted into a world-class soccer academy. The exemption would permit the Parks Department to build dormitory style housing for athletes participating in extended training at the Park.

The second park for which an exemption is being sought is Camp Matecumbe, located in Western Miami Dade County. The site which served as a shelter for orphans, a campground for children, and a temporary home for thousands of children who were forced to leave Cuba during operation Pedro Pan in the early 1960's. The

who were forced to leave Cuba during Operation Puma in the early 1960s. The Parks department is seeking to build 'rustic style' sleeping accommodations for use by park patrons.

CUBAN EXILE HISTORY MUSEUM

Also on July 17, 2014, the Board of County Commissioners voted to adopt a resolution I sponsored directing the Mayor to enter negotiations with a group seeking to develop a Cuban Exile History Museum on county owned land behind the American Airlines Arena known as "Parcel B." Under the proposed development plan the three acre site would feature the museum on one acre and converting the remaining two acres into a public, waterfront park. The museum will be financed and developed entirely by Cuban Exile History Museum, Inc., a not for profit entity, and no County monies will be utilized to construct, maintain, or operate the museum. It is my sincere belief that yesterday's action by the Board was a win-win for residents. The museum will serve as a beacon of freedom and a testament to the American dream while providing the public with desperately needed waterfront green space. Under the terms of the resolution, negotiations between the administration and the museum group must be finalized within 6 months. As the proud son of a Bay of Pigs invasion veteran, I was honored to have the opportunity to sponsor the legislation that I believe will result in the construction of one of our community's signature museum parks.
